Publications of H. Tracy Hall:

7. H. Tracy Hall, *The Solubility of Polytrifluorochloroethylene*, J. Am. Chem. Soc., 74, 68-71 (1952). NOTE: Tracy Hall received a very complimentary letter in response to this article from the award-winning J. H. Hildebrand, Dean of the College of Chemistry at the University of California.
27. H. Tracy Hall, "What the Sunday School has Done for Me," The Instructor, 91, 341 (1956).
30. H. Tracy Hall, "Chemistry at High Temperatures and Pressures" (Dinner Speaker at Fourth Sagamore Ordnance Materials Research Conference, Held at Racquette Lake, New York August 21-23, 1957.)

42. H. Tracy Hall, "Possible Future Roles of the Utah Academy," Presidential Address, Proceedings, Utah Academy of Sciences, Arts and Letters, 38, 8-10 (1961).

48. H. Tracy Hall, "High Pressure, High Temperature," Perspectives in Materials Research, edited by L. Hinnel, J. J. Harwood, and W. J. Harris, Jr., Office of Naval Research, Dept. of the Navy, Washington, D. C., Surveys of Naval Science, No. 10, February 1963, pp. 730-738. (Note: This material was written four years before the book was published).

68. H. T. Hall (Book), "High Pressures (to 100,000 Atmospheres at 1500°C)," American Institute of Chemical Engineers, Today Series, 345 West 47th St. New York, N. Y. 10017, (1967), 179 pp.

106. H.T. Hall, "This Week's Citation Classic, Ultra-high pressure, High-temperature Apparatus: The "Belt," Current Contents, ISI Press, 41, 14 (1980).
